CLASS OF 1914

Maysville High School Receives Sheep Skins at Brilliant Commencement

E. L. Powell Delivered Forceful Address—23 Graduates

The crowning event of the closing week of the Maysville public schools took place last evening when the graduating class of the High School received their diplomas with appropriate accompanying ceremonies. Despite the terribly hot weather the auditorium was filled with people.

The graduating class has twenty-three members, the largest in the history of the Maysville High School with the exception of the class of 1913 which was composed of the same number. Maysville people have abundant cause to feel proud of her High School and class of '14 this morning.

The stage of the auditorium was occupied by the speaker of the evening, the officials of the school and the members of the graduating class who bear grey gowns and sombre spirit.

Diplomas delivered later.

The faculty of the High School which was present for the occasion is composed of:

Superintendent of Schools—W. J. Caplinger.

Principal of High School—Earl F. Chase.

Assistants—C. S. Dale, H. O. Portz, Nell Sutherland, Sallie Taylor, Hilda Threlkeld.

Music Instructor—Marie Hanselman.

Every one of these teachers have more than reason to be justly proud of their year's work and Maysville a city should feel highly elated over this graduating class of her High School.

May every one of the fortunate young men and women make true successes in life.

The class address to the graduates was delivered by Rev. E. L. Powell of Louisville, who is well known to Maysville people, having been pastor of the Christian Church here thirty years ago. His theme was "Youth; Its Possibilities when Guided by Laudable Ambition." Dr. Powell spoke for over fifty minutes and his words conveyed a message of hope and encouragement from start to finish. In an allusion to the Bible passage, "Blessed are the meek for they shall inherit the earth," he referred to the French word of "courteous," of the word which we render "meek," with the significance that "youth, above all, should be courteous." Dr. Powell's address showed consummate thought and was impressive to his entire audience easily proving his deservement of "the leading Divine of the Falls City."

The program for the evening was as follows:

Orchestra—"The Rambler March."

Invocation—Rev. A. F. Stahl.

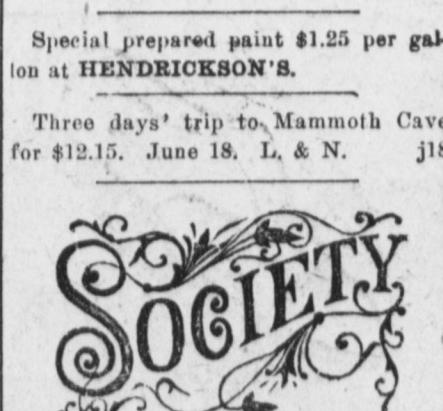

Safatory—Helen Stevens.

Quartette—"Light and Gay"—Gounod. Edith Hoechli, Hermann Calvert, Anna Calvert, Ernest Ziegler.

Valedictory—Marion Daly.

Solo—"Serenade"—Schubert. Lucie Smith, with violin obbligato, Basil Dunn.

Presentation of Scholarships—Prof. H. O. Portz.

Mrs. Robert T. Bouldin announces the engagement of her sister, Miss Pearl O. Pickett, daughter of William S. Pickett of Missouri, to Jesse Lee Houck, son of Dr. L. T. Houck of Louisville. Miss Pickett is well known here.

Mrs. W. G. Lewis entertained very charmingly Monday with a "morning coffee" in honor of the program committee of the Nomads, and the following visitors: Mrs. Clelland of Lebanon, Mrs. Marston of Minneapolis and Miss Goggin of Austin. Mrs. Lewis' guests were limited to these and their entertainers, but the attractive apartment was fragrant with June lilies and the occasion was marked by the charm and informality that characterize the truly delightful social gathering.

HARD TIMES AS A POLITICAL ISSUE.

Mr. Roosevelt intimates that the wicked Democrats are responsible for the prevailing hard times.

This is awful! It is true that we had a panic when Roosevelt was President; it is true that whatever tremors have afflicted the business world since Wilson was elected are mild in comparison with what would have followed a Roosevelt victory of 1912. But Roosevelt comes back from a long trip in the South American jungle; he confesses that he knows little of conditions at home, yet fires away at Wilson as a matter of routine. We had cherished an idea that the day for that kind of blind partisanship passed some time ago!

We have had Democratic hard times and Roosevelt hard times. Leaving out of account the Roosevelt administration, who can remember a Republican panic? The only party that has any license to make an issue of prevailing industrial conditions is the party which, whatever its faults of omission or commission during long years of complete control of the National Government, never made the creation of panics a specialty.—Times-Star.

A BANNER WITH A STRANGE DEVICE.

It seems that our peculiarly patriotic (?) Administration at Washington is seriously considering whether or not to award to British manufacturers the contract for supplying the American army with American flags. British bids are some \$4,000 or \$5,000 lower than American bids for the contract. It is astonishing that even the un-American characteristic of American Free-Traders should dream of going to such a length as that of having Old Glory furnished by foreigners. It is "the end of the limit!" Charles Heber Clark, speaking recently at a testimonial dinner tendered to Nathan T. Folwell at the Manufacturers' Club in Philadelphia, sounded the right note when he said:

I would rather pay \$10,000 for every stripe and \$10,000 for every star of Old Glory than have that sacred banner for our army and navy made abroad.

It would be a sight for gods and men to see American soldiers marching under American banners bearing the strange device, "MADE IN ENGLAND!" But everything that is un-American seems possible with Free-Traders.

It has been reported that a cargo of 22,000 cases of Mr. Wilson's Free Tariff eggs have arrived from Hongkong, China. This makes the wife of the Democratic farmer stop and wonder how long John is going to continue to vote this upon her.—Carrollton (Mo.) Republican-Record.

"Henry Watterson says that the Wilson policies are all right for heaven but unsuitable for earth. But surely the Colonel knows the Lord's prayer."—Chicago News.

Yes, but the Lord's prayer was not incorporated by the last National Democratic platform—though Mr. Bryan had the framing of it—and don't you recall that Mr. Wilson told the Suffragettes he would not go outside the platform on no accounts whatsoever?—Courier-Journal.

THE WHYS AND THE WHYFORS

Brother Rockefeller, among his many practical philanthropies, has established a million-dollar fund for research work of benefit to us humans. The government is helping the hogs and the sheep, so Brother John thinks he might as well be the goat and do something more for us lambs.

You all one time or another, have been amused by the factory picture that looked like it covered 149 square miles, had a forest of stacks belching volumes of dense black smoke, and a million windows, and apparently housed 65,432 employees? One concern has already been driven to say under its illustration: "All buildings here shown are part of our works," Good scheme, and enlightening.

"Imperator" Is a New Ship—Headline.

Before her recent extensive alterations she was said to be "tender" (likely to roll). It's pretty tough for a new ship to be so tender that it takes a roll of 5,000,000 marks to keep her from rolling. Another alteration has provided better accommodations for the firemen. That's real human in world, where firemen are commonly considered—well, just firemen until they jump overboard. Then they are crazy.

Your Uncle Billy waxed eloquent to The Skipper, our fellow editor, about the hardships of the war photographers. Skipper said it was no cinch to get pictures in a power plant either. On a recent skirmish into Pennsylvania, he (200 pounds in the shade) had to scale a five-story building, had a new dollar derby sniped by a hidden pipe, his glasses were shot from off his face, and a hole burned in his panties. All of which seems to prove that Peace hath her damages no less destructive than War.—From Power.

"One of those Nobel prizes ought to go to Luther Burbank."

"Why so?"

QUICK, WATSON, THE NEEDLE.

At the close of 1912 every man, woman and child in New York City stood pledged for \$156.57 of net municipal debt. Jointly they owed \$1,177,321,915. They had established what is probably a high water mark in the history of the world. New York has set a record for advance of other American cities. The per capita net indebtedness of the 195 largest cities of the country in 1912 averaged \$68.75. New York has the average beaten twice over. It is in a class by itself. * * *

The national debts of the world increased 20 per cent. in the last ten years and doubled in the last 40 years. * * *

American cities, therefore, have not been alone in their spendthrift habits. But they seem to have played the game harder, plunged deeper, tied up the productive ability of unborn children to a greater extent than other nations.

Nor has the tendency started to decline. In the first three months of 1914 the cities, counties and states of the country sold more permanent bonds than ever before in the first three months of any year. The total was \$146,955,578 for the three months.

In 1912 and 1913 the scarcity of free capital and the consequent high interest rates for money, made it hard to sell municipal bonds. Many cities failed to sell large issues and postponed their sales for a more propitious market.

The market came this year because of the exemption of municipal bonds from the income tax, extraordinary depression in trade and the resultant piling up of capital in the banks. The atmosphere for municipal borrowings changed.

Cities are taking advantage of it to go further into pawn. The year 1914 will doubtless be a record year in the swelling of municipal debt.

While the debt of the United States government per capita has been going down, the financial obligations of the larger cities have been going up. * * *

In 1912 the net indebtedness of the nation exceeded the net indebtedness of the 146 cities by 7.7 per cent; ten years later the cities owed 77.5 per cent, or \$787,344,747 more than the nation. In other words less than 27,000,000 people voluntarily assumed a financial burden one and three-fourths times as great as that pledged by 94,000,000.

The point to these figures and comparisons doesn't lie in the totals. It rests in the fact that the debt of the cities increased more than three times as fast as their addition of population. The population grew 31.5 per cent, in the ten years ended with 1912; the mortgages upon the people grew 100.3 per cent.—William H. Hodges, Public Service, for June.

The proceedings seeking Harry K. Thaw's release on bail reached the United States Supreme Court.

Seven are known to have been killed and a dozen more injured in the fierce tornado which swept over Iowa Friday night.

MUNICIPAL MADNESS. *****

Municipal madness is a mild term to apply to financial follies of Americans during the last fifteen years. Their palpable failure as operating units, from a financial standpoint, is absolutely plain. It is unnecessary to consider the efficiency with which money has been spent. That is another story entirely.

Everyone knows that a mortgage is something which matures and has to be paid. Comparatively few realize it.

Municipal debts are mortgages of the hardest, most infaillible kind. The small taxpayer or the non-direct taxpayer refuses to bother about the subject. He usually believes that the financial burden escapes him entirely and falls on someone else. Of course he is mistaken.

A municipal debt is a leech upon the people—all the people—even to the meanest and poorest inhabitant; clear to the children in arms and usually upon the children of unborn generations.

Most politicians and officeholders favor more public debt. It means greater funds for them to handle; more responsibility; opportunities for visible achievements; reasons for higher salaries.

The people realize nothing of the unsound economic and financial methods which underlie the government operation of their cities. Many cities annually emit great volumes of costly printed matter. So far as the ordinary citizen is concerned this stuff means nothing. He would need a long vocation and a trained accountant to give him an inkling of the facts the reports contain. The census bureau experts had to haunt city halls for weeks to get approximately the information desired by the government.

If the people understood what was going on they would curse every proposal to increase municipal debt. They would at once start to make effective a policy of the closest restriction of municipal government activities, based upon the broad principle of confining government to its narrowest limits—government for governmental purposes strictly.

One hundred and forty-six American cities of more than 30,000 population—New York included—dealt with by the government in its report ending with 1911, grew 31.5 per cent. in the ten preceding years. But the cost of local government grew 41 per cent per capita. Debt and expense beat growth by a big margin.

At the close of 1912 every man, woman and child in New York City stood pledged for \$156.57 of net municipal debt. Jointly they owed \$1,177,321,915. They had established what is probably a high water mark in the history of the world. New York has set a record for advance of other American cities. HIRSCHFELD SHOE FACTORY

What Pluck Has Done for One Maysville Man—Factory Gets Order for 10,000 Pairs of Shoes.

Very few Maysville people are aware that Maysville has such a large and well-equipped shoe factory as that of Mr. M. R. Hirschfeld, whose new establishment is situated on the beautiful bottom South of Forest avenue. Mr. Hirschfeld's former factory was practically ruined by the flood of 1913, his losses being thousands of dollars. But with tenacious pluck and American determination, he bravely set to work and tore his entire old factory down, and purchasing a new and ample site South of the Avenue, erected a new factory, complete, substantial and imposing, three stories high, equipped with the latest machinery, with both gas and electric power and lighted with electricity.

The plant is so far above the flood line of 1913 that Mr. Hirschfeld can well-nigh defy the yellow water to come and get him.

This plant is so eligibly situated that it is a wonder that others below the flood line do not remove to the high ground.

Mr. Hirschfeld is employing about 25 hands now, most of whom are women.

He has just booked an order for 10,000 pairs of all leather shoes from a Cincinnati jobber, with more to follow. The "wooden shoes" he manufactures have only thick, wooden soles, the uppers being made of leather. These wooden sole shoes are used in dairies, breweries and other places where there is much dampness.

It will pay any one to visit Mr. Hirschfeld's new factory.

WERE Senior Class Day Exercises at THE High School Yesterday Afternoon.

Interesting beyond measure and extremely delightful were the exercises given by the graduating class yesterday afternoon at the High School Auditorium. Parts in the "Class Day" program were taken by those not in the class play, and the manner in which the young people acquitted themselves, the originality and fluency of their papers, reflects them much credit. The program rendered was as follows:

Address to Undergraduates—George Bauer, president of Senior Class.

Response—Herman Calvert, president of Junior Class.

Introduction—Daisy Chalkey.

Class History—Helen Stevens.

Last Will and Testament—Mary Sheeler.

Calendar—Elizabeth Higgins.

Music Solo—"Romantique"—Mary Matthews.

Class Poem—George Redmond.

Prophecy—Lena W. Lykcas, Nellie Grant, Anna Calvert.

Caricature—Emma Debold.

Donors—Ernest Ziegler, Anna Calvert.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whittaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have had a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

CHRISTIAN CHURCH ELECTS OF FICERS NEXT SUNDAY.

There will be the election of officers of the Christian Church at the morning service next Sunday. Those who have names of persons to suggest for either deacons or elders should see Harry Barkley, J. E. Threlkeld, Dr. J. M. Frazer and Mrs. Anna Clark.

Public Sale

We will sell at Public Auction at 2 p.m., Saturday June 20th, the Suburban home of Mr. D. A. Emmett, located on the Maysville and Germantown turnpike just outside the city limits.

This is a nice two story frame house of seven rooms with halls, bath and water in the house, also small house on corner of lot that rents to good advantage, together with about two acres of land.

There is a variety of fruit of all kinds on this place. A splendid place for chicken raising and truck gardening.

Mr. Emmett has bought a farm and moved his family to it, and has decided to sell this very desirable home.

With the extension of the street car line in the West End, and the many improvements that are going on in this section of our city, we think we can see a fine opportunity for an investment in this West End property. This home will be sold on easy terms which will be announced on day of sale. Here is your chance to buy a nice home at your own price.

Lovel's Specials!

STRAWBERRIES ARE NOW COMING. In a few days the HOME GROWN varieties will be on the market. The prospects are for a bountiful supply. Later on RASPBERRIES and other fruits will be coming. During the season my house as usual WILL BE THE HEADQUARTERS for all the various kinds. As I have my usual arrangements with the best growers in both TENNESSEE and the OHIO VALLEY I shall be in position to meet all the demands and furnish the best fruits grown, on same days as they are picked. WHOLESALE and RETAIL. So when you want the best come to me.

My stock of FANCY GROCERIES is at all times full and complete and prices lowest.

The biggest and best stock of Coffees, Teas and Sugar; also a full supply of country cured HAMS and BACON of the very best kind. Canned goods in immense quantities. In fact every article of the very best usually found in a FIRST CLASS GROCERY. I buy all my goods direct from first hands for SPOT CASH and have no fear of successful competition. I buy country cured Hams and Bacon and produce generally for which I pay cash or goods at SPOT CASH PRICES.

My usual invitation to country people when in our city to make my house headquarters still stands, and don't forget that I WHOLESALE as well as RETAIL.

AND WE SAID

It's true that this is a Young Man's store but—
We've more than a score of styles
for men who have passed 30.

They are designed for busy men, men
of affairs who know what's what in
clothes. For men who have paid ex-
clusive tailors some outlandish price be-
cause they thought that ready clothes
makers never considered their needs.

They're conservative without being
dead, they're planned for older men
by an expert in

THE HOUSE OF KUPPENHEIMER
and tailored from the best, the purest
woolens ever spun.

They're new, they're exclusive and
they'll fit even the hardest to fit—that's
guaranteed.

They're priced as low as \$18 and
from that to \$35 and they're worth it.

ROSY AND PLUMP

Good Health From Right Foods.

"It's not a new food to me," re-
marked a Virginia man, in speaking of
Grape-Nuts.

"About twelve months ago my wife
was in very bad health, could not keep
anything on her stomach. The Doctor
recommended milk, half water, but it
was not sufficiently nourishing.

"A friend of mine told me one day
to try Grape-Nuts and cream. The re-
sult was really marvelous. My wife
soon regained her usual strength and to-
day is as rosy and plump as when a
girl of sixteen."

"These are plain facts and nothing
I could say in praise of Grape-Nuts
would exaggerate in the least the value
of this great food."

Deafness Cannot be Cured
by local application, as they cannot reach the
inner portion of the ear. There is only one way to
cure deafness and that is by constitutional reme-
dies. Deafness is caused by an inflamed condi-
tion of the mucous lining of the Eustachian tube.
When this tube is inflamed you have a rumbling
and imperfect hearing, and when it is entirely
closed, deafness is the result, and unless the in-
flammation is cured, you have a rumbling
deafness forever, unless you have a surgical
operation.

We will give One Hundred Dollars for any case
of deafness (caused by catarrh) that cannot be
cured by Hall's Catarrh Cure. Send for our
